Professional Summary

Motivated MCA student with a strong foundation in Mathematics and hands-on experience in software development, web technologies, and data analytics. Skilled in C, Java, Python, WordPress, and cybersecurity fundamentals, with a proven track record in AI-driven project development and web optimization. Adept at problem-solving, team collaboration, and leveraging technology to deliver impactful solutions. Eager to contribute analytical and technical skills to consulting and business management roles.

Professional Experience

Software Developer Intern · [ELVAR](#) Hyderabad, India · Jan 2026 - Present

- Developed and maintained WordPress websites, ensuring optimal performance and user experience.
- Managed website updates, content integration, and performance optimization to support business objectives.
- Conducted SEO analysis and implemented on-page improvements to increase site visibility.
- Assisted in testing, debugging, and enhancing website functionality, collaborating with cross-functional teams.

Projects

CropSure – AI-Based Crop Yield Prediction and Optimization · Sep 2025

[React.js](#) [Node.js](#) [Python](#) [TensorFlow](#) [MongoDB](#) [AWS](#)

- Designed and implemented an AI-driven system to predict crop yield using satellite imagery and IoT sensor data, addressing agricultural efficiency challenges.
- Developed a responsive frontend with React.js, Tailwind, and Three.js, and built a scalable backend using Node.js (Express) and REST APIs.
- Implemented machine learning models in Python and TensorFlow for accurate yield prediction and data analysis.
- Utilized MongoDB Atlas, Redis, and AWS for secure data storage and cloud deployment, integrating Docker and GitHub Actions for streamlined DevOps.

Education

Master of Computer Applications (MCA) · 8.00 CGPA · 2025 - Present
